

Data Breaches, Compared

Teresa Tu

STATS 401

A D3 ranking that makes event names and reported counts visible

ORIGINAL EXCERPT

Crowded bubbles, uneven labels

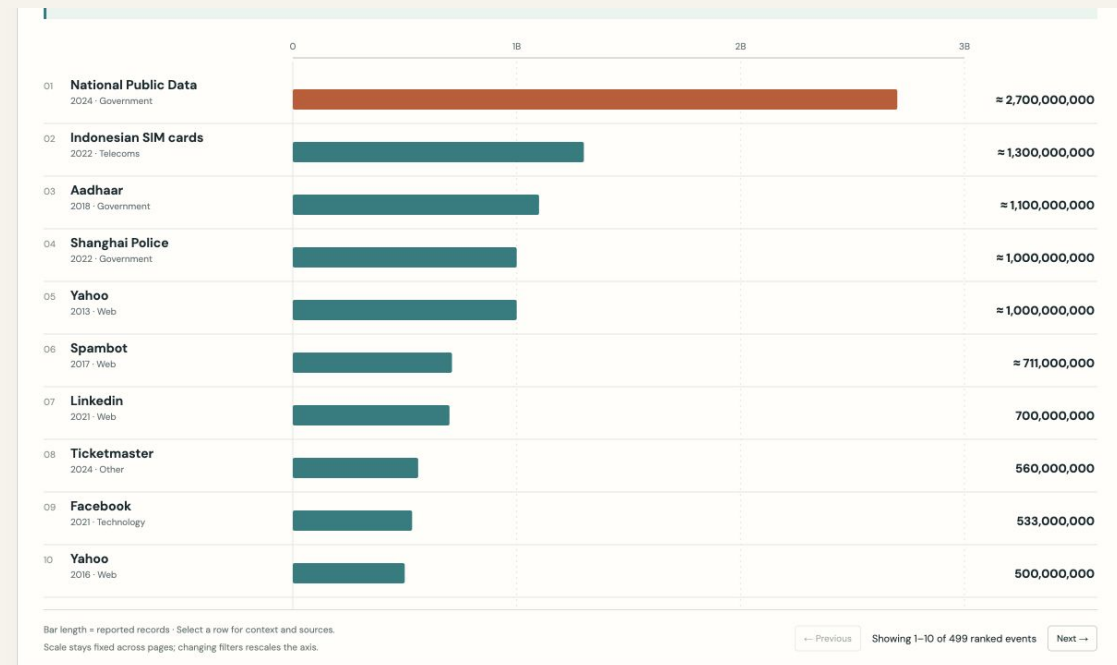

Direct labels

Identify events without hovering.

Tradeoff: the first page shows only the largest events. Small values need filtering or paging.
499 numeric events. 40 listed separately. Source quantities vary and do not measure unique people.

Different excerpts. Original and data: Information is Beautiful.

REDESIGN: FIRST 10 RANKED EVENTS

Sorted rows with names and values

A common zero baseline

Compare bar lengths directly.

Ten rows at a time

Filter or page through the dataset.
