

Data Breaches in Context

Teresa Tu

STATS 401

A bubble timeline for exploring major incidents and comparing selected events

Original excerpt

Focus with context

Select years, keep the full timeline.

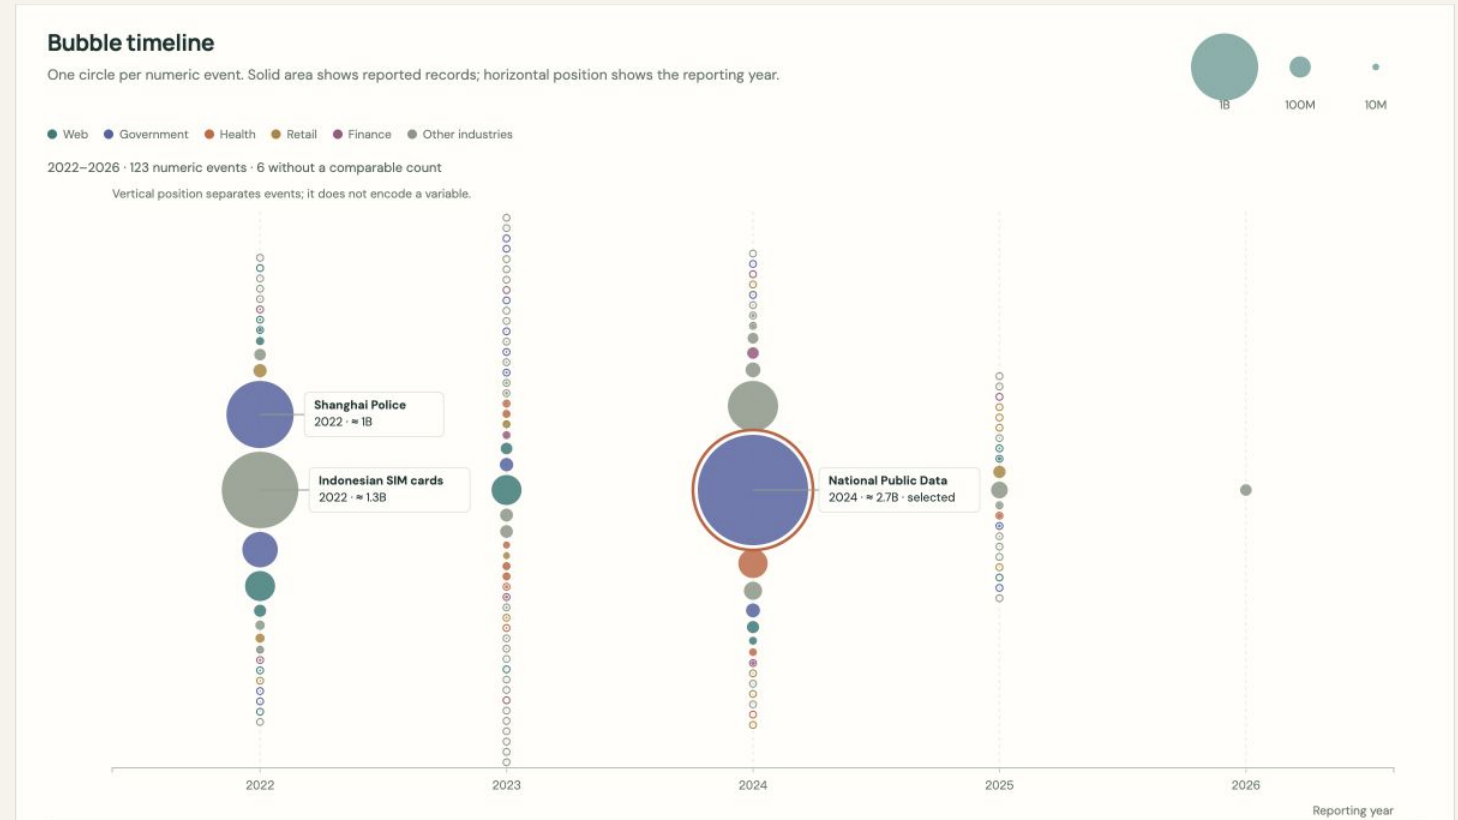

Read event stories

Named list and persistent details.

Compare selected events

Up to three bars on a linear scale.

Redesign: bubble timeline

Circle area retains the sense of magnitude

Tiny bubbles need focus. Precise comparison uses bars.

Full dataset: 539 events, 499 numeric, 40 listed separately. Reported quantities do not measure unique people.

Redesign: 2022–2026. Original and data: Information is Beautiful. Snapshot: September 25, 2026.
