

Data Breaches, Reassembled

Teresa Tu

STATS 401

A D3 redesign for finding and comparing breach events

ORIGINAL EXCERPT

Crowded bubbles

Small labels and difficult area comparisons

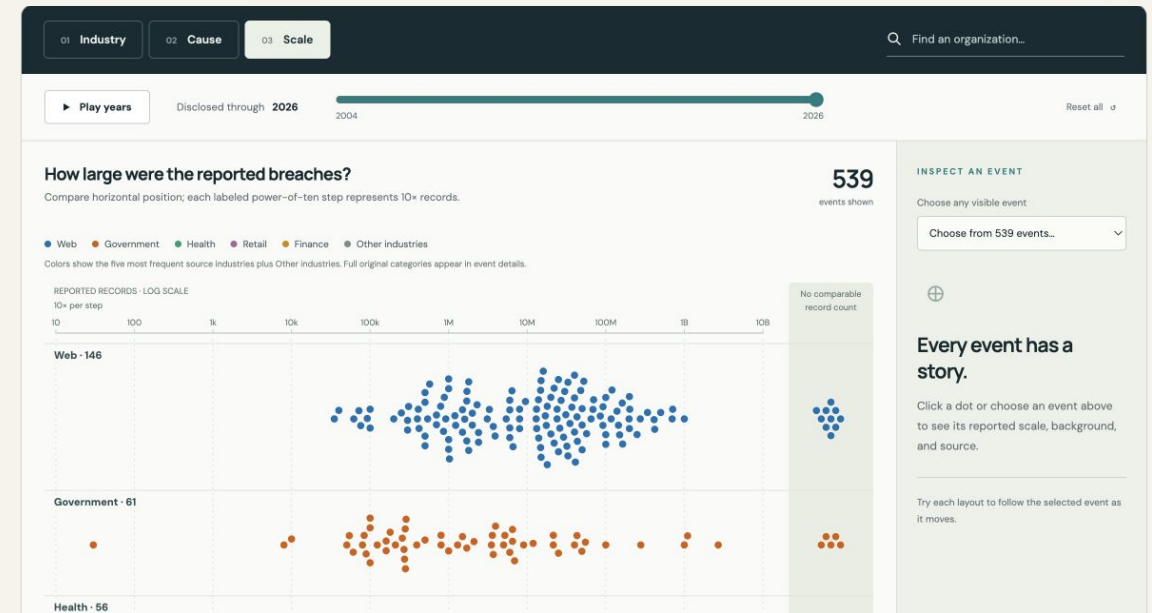

Equal event dots

Keep small events visible.

Tradeoff: less emphasis on huge events. Logarithmic spacing needs explanation.

Different excerpts shown. Original and data: Information is Beautiful.

REDESIGN EXCERPT

Shared positions and details on demand

539 events. 499 numeric. 40 without comparable counts.

Animated regrouping

Stable industry colors preserve identity.

Log-scale positions

Compare scale. Click for reported counts.
